

Senstar®-Genetec™ Gateway

Senstar® offers a range of innovative perimeter intrusion detection sensor technologies that protect sites based on particular organizational needs. The Senstar®-Genetec™ Gateway enables users to monitor Senstar® perimeter intrusion detection systems from within Genetec™ Security Center and configure actions based on the input from those systems.

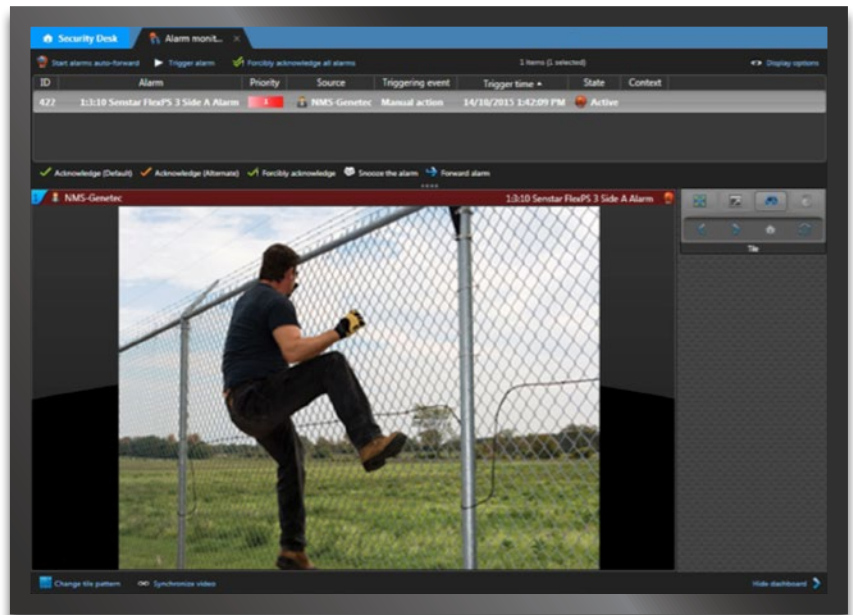

Key Benefits

- ▶ Receive alarm and status information from Senstar® perimeter detection systems in Security Center.
- ▶ Configure event-to-actions and trigger alarms within Security Desk using information from Senstar®.
- ▶ Connect to a broad range of perimeter detection systems from Senstar®.

Perimeter Detection Integration

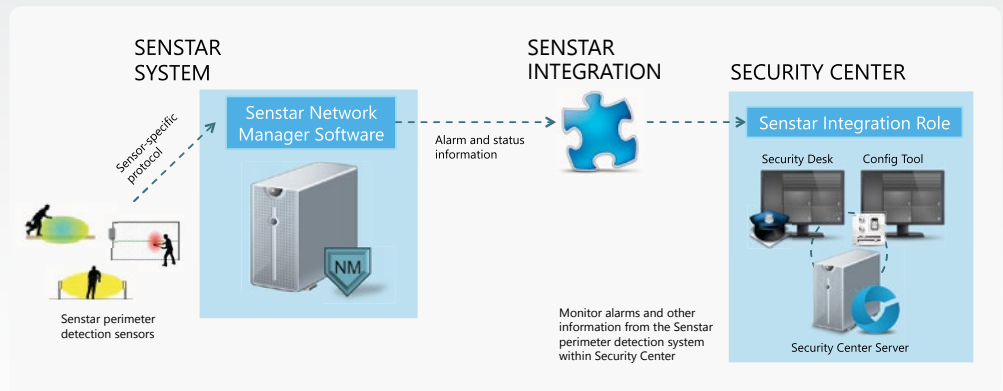

Key Features

- ▶ Synchronize Senstar® perimeter detection alarms and status information with Security Center, including:
 - Sensor/zone alarms
 - Enclosure tamper events
 - Sensor supervisor events
 - Summary of sensor internal diagnostic faults
 - Communications-lost events
- ▶ Provide gateway between the Senstar® Network Manager and Genetec™ Security Center
- ▶ Connect to a variety of Senstar® sensors, including:
 - OmniTrax® buried cable sensor
 - FlexZone™ fence sensor
 - FiberPatrol™ fiber optic sensor
 - UltraWave™ microwave sensor
 - XField® electrostatic sensor

Senstar® Integration with Security Center ▶

Communication between the Security Center system and Senstar® sensors is done over TCP/IP via the Senstar® Network Manager software. The Senstar®-Genetec™ Gateway is installed on a Security Center server and is responsible for the communication between the Senstar® and Security Center systems.

Senstar® Integration with Security Center

Ordering & Compatibility

Genetec Part Number ▶ 1 GSC-1SDK-SENSTAR-NetworkManager per Security Center server

Partner Product Code ▶ 00SW0260 — Genetec™-Senstar® Gateway on CD supporting up to 10 instances of the Senstar® Network Manager on one PC
 ▶ 00FG0220 — Senstar® Network Manager on CD supporting up to 10 instances of the Senstar® Network Manager on one PC

Version and Compatibility ▶ Security Center 5.3 GA and later
 ▶ Senstar® Network Manager Software version 2.16 and later

About Senstar®

Senstar®, the trusted innovator safeguarding people, places and property, has been manufacturing, selling and supporting the world's largest portfolio of perimeter intrusion detection sensor technologies for more than 30 years. Senstar® products can be found around the world in more than 80 countries, in tens of thousands of sites including borders, ports, military and government, correctional facilities, and other critical sites. This integration enables alarm and status information from Senstar® sensors to be received by Genetec™ Security Center.
