

04-May-2015

Product Retirement Notice – G-Line Multi-Wire Capacitive Sensor

G-Line Product Retirement

Senstar herein informs its valued customers, dealers, and representatives of the planned retirement of the G-Line multi-wire capacitance sensor.

Senstar’s G-Line system detects the presence of an intruder by measuring the change in electrical capacitance between the sense wires and electrical ground. As the intruder touches the sense wires, an alarm is generated.

The G-Line sensor has now reached its end of life and Senstar is now announcing the following Product Retirement milestones:

Date	Milestone
04-May-2015	Product Retirement Notice issued (this bulletin), affected products are still available for new sales
31-July-2015	Product no longer available for new sales, repair services remain available
31-Dec-2017	Repair services transition to a Best Effort basis
tbd	Complete end of life – all repair services discontinued

See Table 1 below for a detailed list of affected part numbers.

Product Migration

Senstar does not offer a direct equivalent to the G-Line system. Senstar’s XField system provides an option for extending volumetric detection above fences or wall-tops.

Please direct inquiries or requests for quotation to your local Senstar representative – see www.senstar.com for contact information.

2015PB005A – G-Line Multi-Wire Capacitive Sensor Product Retirement Notice

Table 1 – G-Line Part Numbers Affected by this Retirement Notice	
Part Number	Description
02-140001	G-Line relay processor
02-140002	G-Line multiplex processor
06-140100	G-Line PWA
06-130400-29	Multiplex transponder board
2353	Insulator bracket, G-Line
82-140100	G-Line saddle
FM2325	Processor conduit insulator, G-Line
CPA-3	3-Wire corner post assembly, consists of: <ul style="list-style-type: none"> - one 32” with insulator holes - one corner post socket - 3 camlock insulators - 3 pulley kits
CPA-4	4-Wire corner post assembly, consists of: <ul style="list-style-type: none"> - one 48” with insulator holes - one corner post socket - 4 camlock insulators - 4 pulley kits
CPS-1	Corner post socket
G-Line-3-485	Multiplex processor (RS-485) kit, consists of: <ul style="list-style-type: none"> - 1 dual-zone multiplex (RS-485) processor - 1 conduit insulator - 6 insulators - 30 ferrules
G-Line-3BW-485	Multiplex processor (RS-485) kit with non-active 4 th wire for bird perch, consists of: <ul style="list-style-type: none"> - 1 dual-zone multiplex (RS-485) processor - 1 conduit insulator - 8 insulators - 40 ferrules
G-Line-3BW-M	Multiplex processor kit with non-active 4 th wire for bird perch, consists of: <ul style="list-style-type: none"> - 1 dual-zone multiplex processor - 1 conduit insulator - 8 insulators - 40 ferrules
G-Line-3BW-R	Relay processor kit with non-active 4 th wire for bird perch, consists of: <ul style="list-style-type: none"> - 1 dual-zone relay processor - 1 conduit insulator - 8 insulators - 40 ferrules
G-Line-3-M	Multiplex processor kit, consists of: <ul style="list-style-type: none"> - 1 dual-zone multiplex processor - 1 conduit insulator - 6 insulators - 30 ferrules
G-LINE-3-R	Relay processor kit, consists of: <ul style="list-style-type: none"> - 1 relay processor - 1 conduit insulator

2015PB005A – G-Line Multi-Wire Capacitive Sensor Product Retirement Notice

Table 1 – G-Line Part Numbers Affected by this Retirement Notice	
Part Number	Description
	<ul style="list-style-type: none"> - 6 insulators - 30 ferrules
PU-1	Pulley kit
RELAY PWA	Processor relay board
RS-485 TRANSP	Multiplex (RS-485) transponder board
SA-3	32” Stanchion assembly, consists of: <ul style="list-style-type: none"> - one 32” post with insulator holes - 3 camlock insulators
SA-4	48” Stanchion assembly, consists of: <ul style="list-style-type: none"> - one 48” post with insulator holes - 4 camlock insulators
SL2-1.5N	Crimp ferrule
STAINLESS STL	Stainless steel sense wire, 300 meter
STAND OFF	Stand-off bracket
SU-4150	Camlock insulator
SU-4152	Pulley assembly
SU-4160	G-Line 48” stanchion
SU-4170	G-Line 32” stanchion
5J115ET	Tension spring
TPK-3	3-Wire tension post kit, consists of: <ul style="list-style-type: none"> - 3 cable winders - 6 insulators - 3 stainless steel springs - 30 ferrules
TPK-4	4-Wire tension post kit, consists of: <ul style="list-style-type: none"> - 4 cable winders - 8 insulators - 4 stainless steel springs - 40 ferrules
PM2320	Insulator, G-Line
23863	Wire tensioner, G-Line
