

FiberPatrol Cable Management Kit for Gates

FPKT0500

The FiberPatrol Cable Management Kit for Gates protects sensor cable when it is routed onto a swing gate panel.

The kit includes:

- 1 split conduit – Placed along the post that supports the gate panel, the conduit protects and routes the sensor cable onto the gate.
- 2 cable sleeves – Slides over the sensor cable inside the conduit to provide additional sensor cable protection.
- 2 steel clamps – Secures the conduit to the post.

Specifications
