

GM0760

Grommet for use with oval cable FPSP1012-001

Description

Grommet GM0760 is for use with Senstar outdoor splice enclosure GM0749-24 and Senstar sensor cable FPSP1012-001. It has cable openings that accept the oval shape of cable FPSP1012-001.

One of two grommet may be delivered against part number GM0760:

- a grommet that has two cable openings that fits into one the 0.75” cable ports of GM0749-24
- a grommet that has four cable openings that fits into one of the 1.00” cable ports of GM0749-24

Each grommet comes with filler tubes and a small bag of silicone lubricant.

Note that grommet GM0760 does not by itself provide all the necessary splicing accessories when using splice enclosure GM0749-24 – it is necessary to use the standard splice consumables kit FPKT0200-001 and replace one of the grommets with grommet GM0760.

Country of Origin:

- USA
